User Meeting at Aristotle University of Thessaloniki, LinkSCEEM HPC Roadshow 2015

The LinkSCEEM project (www.linksceem.eu) will hold a user meeting at Aristotle University of Thessaloniki during its forthcoming HPC Roadshow.

The user meeting will take place on the **3rd of February 2015** between 10:00 to 12:00 at the Department of Physics, 4th floor physics assembly room.

User Meeting Details

The user meeting will:

- Provide a general introduction to LinkSCEEM and its resources.

- Give an overview of available HPC systems and software available within LinkSCEEM.

- Describe the training program of LinkSCEEM and present the Supercomputing Training portal.

- Explain how people can access the HPC resources available through LinkSCEEM for the purpose of their scientific research projects.

- The user meeting will also include a hands-on session where participants of the user meeting will be guided through the various steps which are required to access and submit jobs to a LinkSCEEM HPC resource. This will include compilation and submission of jobs – all of which will be accompanied with relevant hands-on practical examples.

Registration

People wishing to attend the user meeting should express their interest to Thekla Loizou (t.loizou@cyi.ac.cy). Attendance to the meetings is given on a first come first serve basis.

Equipment

Participants are expected to bring their own laptops - so they will be able to participate on the hands on exercises during the user meeting, and any other things (such as stationery) they themselves may need during the user meeting.
