DAAD Winter School for Students

Neutron Stars in the Era of Gravitational Waves

Thursday 30 November 2017

9:30-10:15	K. Kokkotas	An Overview of Neutron Stars
10:15-11:00	G. Lalazisis	High-density Equations of State
11:30-12:15	Th. Gaitanos	Nuclear Astrophysics
12:15-13:00	S. Voelkel	Exotic Compact Objects
15:30-16:15	Ch. Moustakidis	Neutron Star Structure
16:15-17:00	S. Nampalliwar	Black Hole Astrophysics
17:30-18:15	N. Stergioulas	Binary Neutron Star Mergers

at the Observatory of AUTH (*free attendance*)
